AGRICULTURAL

BELTS, CHAINS & PARTS for HARVESTERS, BALERS & MOWERS

Product Group 1

Replacement Parts for

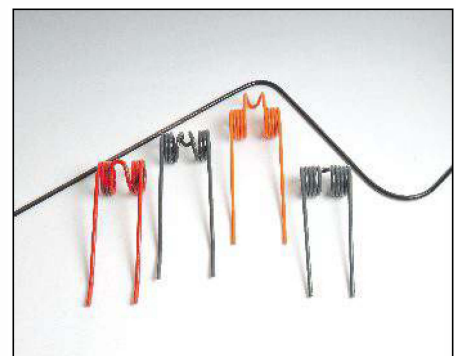

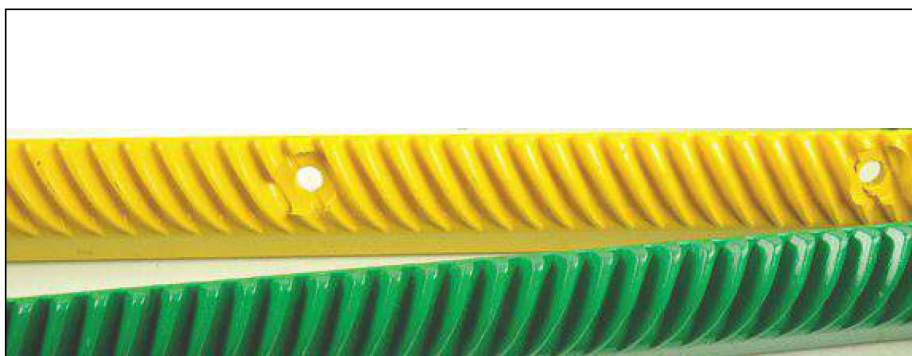

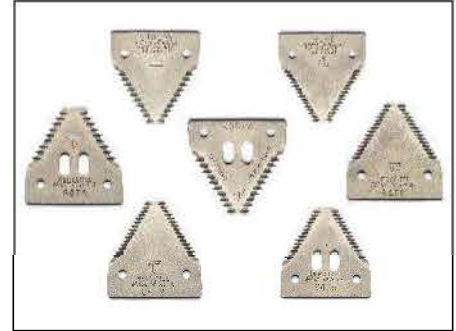

- Pick up Balers
- Combine Harvesters
- Mowers
- Hay Rakes

Product Group 2

Power Transmission

- Roller Chains & Agricultural Chains
- V-Belts & Agricultural Belts
- Special Design Sprockets & Pulleys
- Transmission Gears

Right Choice for Combines...

It is very complicated to manufacture different quality version belts complying with characteristics of complex power transmission applications for combine harvesters.

T.agri belts are being produced for exceeding the top quality standards for each v-belt drives of combine harvesters.

T.agri offers you ;

- Top quality
- Reliable product 100% MADE IN E.U.
- Correct sizes for all applications
- High Performance for most difficult conditions
- Wide ex-stock range & fast export delivery
- For non-stock belts short delivery time
- Profitable product with very high Quality/Price ratio

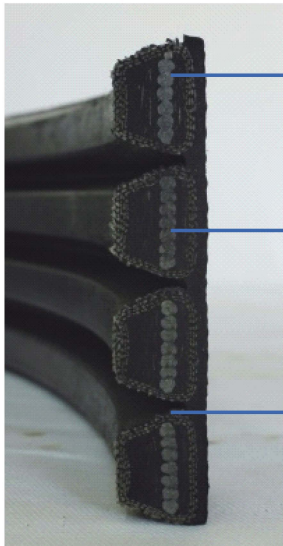

V-belts : A-13, B-17, 20, C-22, 25, D-32, E-40, SPZ, SPA, SPB, SPC, 5V, 8V, AA, BB, CC

Agricultural : HI-HJ-HK-HL-HM-55x25-HO (Wrapped or Cogged)

Joined V : 2AJ to 10AJ -2BJ to 32BJ, 2CJ to 12CJ, 2SPCJ to 12SPCJ

Perfectly Designed and Constructed Belts for Combines...

→ T.agri belts construct with highest quality, tested and certified raw materials

→ All rubber compounds formulate and prepare at the same plant where belts are producing

→ Starting from mould design every process are under fully controlled by manufacturing plant

Reinforced Agricultural Chains

With Longer Wear Life

Tagri chains are specially designed to get better breaking load results than standart ones.

As we are a leading supplier of industrial roller chains and also being a traditional seller of agricultural parts let us to design and supply high quality agricultural chains especially for combine harvesters.

Our combine harvester chains generally produce with **reinforced pins** for feeder conveyors, grain/tailings elevators and corn headers. For several applications, It may be enough for us to know only OEM part reference to provide you correct size of replacement chain for your equipment.

Tagri brand chains are fully under gurantee of our company and we assure %100 customer satisfaction.

Some Examples of T.agri Chains

CA550V-220B Attachments

S55V-220B Attachments

S52LV-K Attachments

413V-K Attachments

CA557-K39 Attachments

CA557-K1 Attachments

384VB-RK Attachments

384R-K / 384V-K Attachments

F4SDA Elevator Attachments

F4SDB Elevator Attachments

Standart K1 Attachments

Standart K1-2 Attachments

'Steel Forged' Guards...

One of the main product of T.agri group is 'Steel Forged' double guards.

Each T.agri guard indicates  marking.

T.agri double forged guards produce in Turkey with 2 quality versions. All quality versions are fullfill requirements of several OEMs.

Our standart production quality is type (C) and this quality level is mostly preferred among customers. (NI) Reinforced guards produce only upon customer order.

	Quality (C)	Quality (NI)
Steel Material	<ul style="list-style-type: none"> • SAE1016-1020 (Certified & Quality Controlled Material) 	<ul style="list-style-type: none"> • Special Alloy Steel (Certified & Quality Controlled Material)
Heat Treatment	<ul style="list-style-type: none"> • Case Hardened 	<ul style="list-style-type: none"> • Duplicate Hardened
Specifications	<ul style="list-style-type: none"> • Thin but extremely hard surface • Tough Core 	<ul style="list-style-type: none"> • Deeper hard surface on cutting edges • More resistance against breakage
Advantages	<ul style="list-style-type: none"> • Economic Price • Short Delivery Time • Quality 	<ul style="list-style-type: none"> • Top Quality Product (Strong & Elastic)
Disadvantages	<ul style="list-style-type: none"> • Wear life is shorter • Elasticity level is less comparing to (NI) type guards 	<ul style="list-style-type: none"> • High Price • Longer Delivery Time

Main Product Range for Combines...

For Better Harvesting...

T.agri-Herschel sickle knives made in U.S.A.

Our customers who had started to harvest by T.agri-HERSCHEL top serrated sections, knows quality of cutting performance and long harvesting life.

With T.agri-Herschel sickle knives, you will be experienced to cut following crops without problem:
Oats, Rye, Barley, Wheat, Rice, Lentils, Hemp, Millet, Rape, Reeds, Vetches, Peas, Beans, Flax, Grass, Clover, Sunflower etc.

Delivery Programme for Sickle Knife Sections
